Product Specifications

Description

Rigid LED Strips are a high powered (3.3W per foot), super bright rail with 12 SMD (surface mounted diodes), that come fully assembled as a modularly designed lighting source. Give a finished look to display and under cabinet lighting. The strips have a long life expectancy (>50,000 hr), are 24V DC input and they are also fully dimmable. Rigid LED Strips are available in the entire width of the white spectrum, from warm (2600-3000K), incandescent (3700-4300K) to cool white (5000-6300K), the bars measure 30 cm in length and come provided in an aluminum mount.

Specification Guidelines

Part#	Product Name
RLS-24V-5500K	Rigid LED Strip - 24V 5000-6000K - CW
RLS-24V-4000K	Rigid LED Strip - 24V 3700-4300K - IW
RLS-24V-2700K	Rigid LED Strip - 24V 2600-3000K - WW

Owing to the color variance of white LEDs it is our recommendation that color samples be approved prior to shipping of orders.

Rigid LED Strips

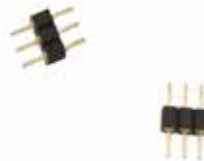

Mounting Clip - 45°
RLS-CLP-45

2 per strip

Power Input with switch
RLS-PWR-SWITCH

Optional Switch

Power Pin
RLS-Pin

1 per connection

Mechanical

Construction: Cast Aluminum

Connections: Power In/Out

Data In/Out

Max. Projection: 20ft

Environmental

Operating Temperature:
0° - 30°C

Location: Dry location

Weatherability: IP44

Electrical

Input Voltage : 24V DC
Power Draw : 3.3W/ft

Max Length: 12 pcs

Use with LED drivers

Mounting

Options:
Aluminum Mounting Clips.

*Horizontal and 45° mounting
clips are available
